MEMORANDUM FOR: DEPUTY DIRECTOR FOR PLANS

SUBJECT : Review of General Willoughby's Intelligence Materials

REFERENCE : Memorandum from Executive Officer for DD/P, file ER-2-2563, dated 26 Sept. 1951, to AD/50, subject General Charles A. Willoughby.

1. In reply to reference memorandum, it is suggested that CSO review and screen for counter intelligence purposes the intelligence materials which General Willoughby states he is now ready to begin turning over to CIA. It is further suggested that upon completion of the screening the materials should be passed to OCD for determination of the items of value to CIA and other government agencies and for the proper distribution.

2. A simple and satisfactory method to pick up these materials would appear to be to use the same channels as have been used heretofore in contacting General Willoughby.
